Beneath the engine a special mat or an oil catch pan must be placed. This mat or pan must be big enough to catch all possible liquids coming out beneath the engine. The mat beneath the engine should have the following properties:

Reconnaissance

The reconnaissance of the stages is only allowed in the timeframe stated in supplementary regulations and entry confirmation. We ask you to stick to the allowed speed limits and take care of the local residents!

Reconnaissance Timetable

Reconnaissance is only allowed on the following days at the following times

Saturday, 12.09.2015	10.00 - 18.00
Thursday, 17.09.2015	10.00 - 17.00
Friday, 18.09.2015	09.00 - 11.00

Please care about the reconnaissance regulations! Authorities often recognize participants racing on the stages with too high speed several days before the event. Note that it is reconnaissance, not training! Some parts of the stages are in villages or agricultural roads with many cyclists, pedestrians and other local residents. We like to call to your attention that the local authorities monitor the stages and liaison roads more intense during the event and the reconnaissance!
